GAS INSERTS **REDEFINED**

Experience The Most Realistic Fire

Re-defining what's possible with a gas insert; introducing the all-new Regency Atmosphere Gi29. The first of our next generation of gas fireplace inserts, Gi29 has been designed from the ground up to fit into more spaces, deliver an industry-leading viewing area and provide unmatched views of our new revolutionary patent-pending infusion burner technology.

Mix & match accessories with almost 450 different combinations of accessories, making the Gi29 our most flexible and stunning gas insert ever!

Elevate realism & elevate your expectations of a gas insert with the all-new Atmosphere collection from Regency.

Cover: Gi29LE shown with a regular faceplate with Premium sunset bronze surround, volcanic black brick panels, and oak log set.

Left: Gi29LU shown with flush 3-sided faceplate, black glass reflective inner panels, and oak log set.

INFUSION BURNER

Featuring Our Latest Technology

Inspired by nature and fueled by innovation, Regency's new patent-pending infusion burner technology delivers an unparalleled realistic flame and log set. Homeowners can now truly enjoy the look and feel of a traditional wood fire at the touch of a button.

By reimagining what's possible, Regency designers have replicated the beauty of a real wood fire by infusing the burners into the log set, creating a natural burning log effect for the **most natural gas insert** available. Unmatched by any traditional burner, the Infusion Burner will elevate the standard for Gas Inserts.

Gi29 GAS INSERT

Regency's Most Advanced Gas Insert

Experience the most realistic gas fireplace insert available. The all-new Gi29 is designed to fit into more homes and provide a class-leading viewing area, so you **see more of what matters - the fire**. Our all-new patent-pending infusion burner technology creates a burning log look so realistic your guests will have a hard time telling whether it's wood or gas!

FEATURES

- NEW: innovative, patent-pending infusion burner with oak, birch, or driftwood logs
- Available in both Standing Pilot and Electronic Ignition models
- Invisimesh safety screen for a clear view of the fire
- Ember bed lighting for a realistic glow (Electronic Ignition model only)
- Multiple faceplate styles available in various finishes
